

Perfect Jello Shots Recipe

1 cup boiling water or juice*
1 small box jello (3 oz.)
1/2 cup vodka
1/2 cup flavored liqueur/ schnapps/ pucker**

Dissolve jello in 1 cup of boiling water. Remove from heat. Add the vodka and liqueur. Pour jello mixture in to your Jellinator and fill your shot cups. Refrigerate until set (approximately 3-4 hours).

*Use only CANNED pineapple, kiwi, guava, or papaya juice, as the bromelain enzyme in the fresh fruit or juice will prevent your jello shots from jelling. And that, my friends, would be tragic.

**If you decide to use just hard liquor without schnapps, then increase amount to 2/3 cup vodka, rum, etc. plus 1/3 cup water or juice for every 3 oz. box of jello (or 1 cup liquid + Knox gelatin). Otherwise, what's the point? THEY'RE CALLED SHOTS FOR A REASON, NANCY-BOY!
